

Front-End FULL Course

Front-End course for the Beginners

- 1 - **HTML & CSS** " Lvl 1 "
- 2 - **HTML & CSS** " Lvl 2 "
- 3 - **JavaScript** " Beginner "
- 4 - **JavaScript** " Intermediate "
- 5 - **JavaScript** " Advanced "
- 6 - **React JS** " Beginner "
- 7 - **React JS** " Intermediate "
- 8 - **React JS** " Advanced "

This is **FULL Front-End 8 Month** course for beginner.
With the knowledge acquired after completing this course, you will be able to work as a **Junior Front-End Developer**

HTML & CSS

Welcome to HTML & CSS courses

- Day 1 - Introduction to web development, Introduction to HTML structure
- Day 2 - Working with Text tags | `<p>`, ``, `<h1...h6>` | Comments | image | Semantic Tags
- Day 3 - Form | Input | Checkbox | Select
- Day 4 - Tables | Lists | Video | iframe | Audio
- Day 5 - Intro To CSS | Inline Styling | Styling in style tags | CSS Selectors
- Day 6 - Pseudo-classes | Colors | Background | Borders | Margin/Padding
- Day 7 - Working with text | Fonts | Max-width/Height
- Day 8 - Overflow | Positions | Math function | Variables
- Day 9 - Opacity | Animations | Keyframes | Transition | Transform
- Day 10 - Display-Flex
- Day 11 - Display-Grid
- Day 12 - Media Queries
- Day 13 - **Exam**

HTML & CSS Level 2

Welcome to HTML & CSS level 2 courses

- Day 1 - Web Page Creating < Desktop >
- Day 2 - Web Page Creating < Desktop >
- Day 3 - Web Page Creating < Desktop >
- Day 4 - Web Page Creating < Desktop >
- Day 5 - Web Page Creating < Responsive >
- Day 6 - Web Page Creating < Responsive >
- Day 7 - Web Page Creating < Responsive >
- Day 8 - Web Page Creating < Responsive >

JavaScript Beginner

Welcome to JavaScript Beginner courses

- Day 1 - Intro to Javascript | Comments | Values and variables
- Day 2 - Data-types | Basic operators | Operator precedence
- Day 3 - Strings template literals,if/else statements,
- Day 4 - Type conversion/type coercion | Truthy falsy values
- Day 5 - Equality operators | Boolean logic | Switch statement
- Day 6 - The Conditional (Ternary) Operator | Javascript-releases | ES5,ES6+ | Strict mode
- Day 7 - Functions | Function declarations | Function expressions
- Day 8 - Arrow functions | Introduction to Arrays | Basic array operators
- Day 9 - Introduction to objects | Dot vs bracket notation | Object Methods,
- Day 10 - Iteration for loop | Looping arrays | Breaking and continuing | The while loop,
- Day 11 - What's the DOM and DOM Manipulation | Selecting and Manipulating Elements
- Day 12 - An High-Level Overview of JavaScript | Execution Contexts and The Call Stack
- Day 13 - **Exam**

JavaScript Intermediate

Welcome to JavaScript intermediate courses

- Day 1 - Scope and the scope chain | Theory and practice
- Day 2 - Hoisting and TDZ | The this keyword | Regular functions vs arrow functions,
- Day 3 - Primitives vs. Objects (Primitive vs. Reference Types) | Destructuring Arrays,
- Day 4 - Destructuring Objects | The spread operator | Rest pattern,
- Day 5 - Short Circuiting (&& and || and ??),, Logical Assignment Operators | Looping Arrays: The for-of Loop
- Day 6 - Optional Chaining (?.) | Looping Objects: Object Keys | Values and Entries
- Day 7 - Sets | Maps | String methods | Working with strings
- Day 8 - Functions Default Parameters | First-Class and Higher-Order Functions | Functions Accepting Callback Functions
- Day 9 - Functions Returning Functions | The call | Apply | Bind Methods
- Day 10 - Immediately Invoked Function Expressions (IIFE) | Closures
- Day 11 - High order methods part-1 forEach | Map | Filter | reduce | Find,
- Day 12 - High order methods part-2 some | Every | Flat | FlatMap etc...
- Day 13 - **EXAM**

JavaScript Advanced

Welcome to JavaScript Advanced courses

- Day 1 - Numbers,dates | Intl and Timers
- Day 2 - Advanced DOM events part-1 | Select | Create | Delete | Elements | Styles
- Day 3 - Advanced DOM events part-2 attributes | Classes etc | Event types | Event propagation
- Day 4 - Advanced DOM events part-3 bubling and capturing | Event delegation | DOM traversing etc.
- Day 5 - OOP introduction | Constructor functions | New Operator
- Day 6 - Prototypes | Prototypal inheritance | Prototype Chain
- Day 7 - ES6 Classes | Setters | Getters | Static methods
- Day 8 - Introduction to Asynchronous Javascript | XMLHttpRequest
- Day 9 - Callback Hell | Promises | Fetch API
- Day 10 - The Event Loop theory | Practical
- Day 11 - Async/await | Try Catch
- Day 12 - Running-Promises paralel
- Day 13 - **EXAM**

React JS Beginner

Welcome to **React JS Beginner** courses

- Day 1 - **Introduction**
- Day 2 - **JavaScript Refresh**
- Day 3 - **Working refresher**
- Day 4 - **Working with components**
- Day 5 - **React- state - events**
- Day 6 - **Rendering lists, conditional content**
- Day 7 - **Styling**
- Day 8 - **Debugging**
- Day 9 - **Summary**
- Day 10 - **Practical Working**
- Day 11 - **Fragments - portals-refs**
- Day 12 - **Side- effects**
- Day 13 - **EXAM**

React JS Intermediate

Welcome to **React JS Intermediate** courses

- Day 1 - **Context Api**
- Day 2 - **Practice project**
- Day 3 - **Look Behind a scenes**
- Day 4 - **Class based components**
- Day 5 - **Sending http requests**
- Day 6 - **Summary**
- Day 7 - **Building custom react hooks**
- Day 8 - **Working with forms**
- Day 9 - **Practice Working**
- Day 10 - **Summary**
- Day 11 - **EXAM**

React JS Advanced

Welcome to [React JS Advanced](#) courses

- Day 1 - [React Redux Introduction](#)
- Day 2 - [Diving into redux](#)
- Day 3 - [Diving into redux](#)
- Day 4 - [Advanced redux](#)
- Day 5 - **Summary**
- Day 6 - [Routing in React](#)
- Day 7 - [Authentication in react](#)
- Day 8 - [Animation in React](#)
- Day 9 - [Introduction to TypeScript](#)
- Day 10 - [TypeScript in React](#)
- Day 11 - [Classes and interfaces](#)
- Day 12 - [Generics,Decorators](#)
- Day 13 - [Advanced types](#)
- Day 14 - [Summary](#)
- Day 15~- **EXAM**

persona

THANK YOU
